

9 INCH METAL CUTTING SAW BLADES

SteelMax™ Industrial quality metal cutting saw blades are the finest blades available for the professional fabricator and metal-worker. You simply won't find a longer lasting, higher performing or cleaner cutting blade anywhere! Blades are available for clean and cool cutting of mild steel, stainless steel and aluminum and are designed specifically for the SteelMax 9 inch metal cutting saw. 9 inch SteelMax blades are also available to fit competitor saws to increase their efficient cutting of mild steel, aluminum and stainless steel.

*For use with Metal Cutting Saws only!

9 INCH METAL CUTTING CIRCULAR SAW

• **Saves Time and Money.**

Less than 6 seconds to cleanly cut 4" x 1/2" mild steel. No Milling or de-burring with near-surgical dry-cut technology.

• **Cuts a Variety of Metals.**

Cuts mild steel, stainless steel and aluminum as easy as cutting plywood.

• **Makes the Worksite Safer.**

With the built-in chip control system, chips and sparks are all but eliminated.

• **Cool-to-the-Touch.**

No waiting for your workpiece to cool down like with torch cutting. Just cut it and handle it.

• **Increase Productivity.**

Laser alignment guide speeds setup time for straight and accurate cuts.

9" Metal Cutting Saw w/Laser
Part # SMS9

Features

Beveling capability up to 45°, powerful 1750 watt motor, 2700 RPM, weighs 20 pounds, blade guiding laser, 9" blade diameter, adjustable depth of cut up to 3-1/4", 25mm arbor bore, unique cover to collect virtually all chips and sparks and enhance user safety. UL 745 certified.
